

We take our food seriously. Every sauce and entree is made from scratch, from hand breaded mushrooms, house blackberry butter, most of our salad dressings to all of our signature steak sauces. Only wild caught fish (except of course for Mississippi farm raised catfish, only the best), and free range wild game on our menu. If we can buy organic or get it local and fresh, we do. We can do almost all items gluten free, and we speak vegetarian. In a hurry? Be sure to tell us.

Please enjoy your evening, let us know how to make it special for you. Come back and see us anytime.

### FROM OUR CHARCOAL GRILL

When it comes to beef, we think quality matters. Only aged Choice or Prime beef, pure Angus or Hereford on our grill.

We hand cut all steaks, grind our own burgers, carefully season & marinate the meat, and grill over charcoal.

All grill entrees are served with their own unique house crafted sauce, onion shreds & two side dishes.
